NEW PRODUCTS 2008/2009

## BLACK

■ **T**rendy and aggressive design for this new series of reels, featuring smooth and powerful gears and an outstanding overall mechanical resistance.

The wide range of front and rear drag reels, available in different sizes, offers a complete choice for any style of fishing.

The soft touch body coating and the soft egg shaped handle knob ensure a great comfort and a perfect grip, even in wet conditions. Aluminum/titanium main spool and graphite spare spool, titanium coated. Outstanding quality/price ratio.

- 8 bearings, including 1 roller bearing
- Shock resistant thick bail wire
- Forged Aluminum/titanium spool with 2 lines of lightening holes
- Graphite spare spool, titanium vacuum coated
- Soft touch body coating
- Titanium coated Twist Free Roller
- Infinite Anti Reverse IAR, supported by 1 roller bearing (O.W.C.)

## MORMORA

■ **V**ery light and thin body and a big spool with a high line capacity are the most evident and distinctive features of these new reels, conceived for a long distance medium casting, both in fresh and salt waters.

The soft touch black coating and the metal black chromed parts give an aggressive appearance and the same time offer a great comfort in use. The reels are delivered with 2 aluminum/titanium high capacity spools, with 2 lines of lightening holes.

The new **MORMORA** reels feature an outstanding overall mechanical resistance, smooth and powerful gears and an excellent line lay.

- 10 bearings, including 1 roller bearing
- 2 forged, X-light, aluminum/titanium spools with lightening holes
- Multi-disk front drag, powerful and progressive
- Soft touch body coating
- Shock resistant thick bail wire
- Infinite Anti Reverse IAR supported by one roller bearing (O.W.C.)
- Titanium coated Twist Free Roller

## BLACK RUN

■ This new series of free spool reels, conceived for carp and predator fishing, offers all what a modern angler is looking for in a fishing reel, including a very affordable price. The new BLACK RUN reels appear trendy and aggressive, thanks to their innovative design and their soft touch black coating. They are equipped with 2 aluminum forged spools, with titanium hardened upper lip and a double line of lightening holes. The new BLACK RUN reels feature an outstanding overall mechanical resistance and extremely smooth and powerful gears, while the wide choice of sizes offers the right answer to any need.

- 10 bearings, including 1 roller bearing
- Shock resistant thick bail wire
- 2 forged, X-light, aluminum/titanium spools with lightening holes
- Multi disk main front drag, powerful and progressive
- Free spool lever and micrometric drag located in the rear
- Soft touch body coating
- Infinite Anti Reverse IAR supported by one roller bearing (O.W.C.)
- Titanium coated Twist Free Roller

## BLACK SURF 12000

■ The big, long casting spool and the powerful gears make this reel perfect for all the heavy duty applications. The new BLACK SURF will be a reliable mate for Surf Casting, Carp fishing, Cat fishing and deep water boat fishing. The 8 bearings, including a roller bearing are made of SS and the main ones of them are double shielded (sealed), for a better protection against external agents. The look is trendy and aggressive, with the soft black body coating offering an incomparable comfort.

- 8 SS bearings, including 1 roller bearing
- Cool forged aluminum/titanium spool and vacuum titanium coated graphite spare spool
- Shock resistant thick bail wire
- Soft touch body coating and ergonomic soft handle knob
- Infinite Anti Reverse supported by one roller bearing (O.W.C.)
- Titanium coated Twist Free Roller

## MR-LD S

A new lever drag trolling reel, strong and reliable. The new MR-LD 9000 S is a direct evolution of the successful TR-LD 900, known and appreciated by thousands of trolling fishermen in several European countries. The overall strength has been further improved thanks to the stainless steel frame on the left size, while the drag is even stronger and progressive. The brass and stainless steel gears are powerful, smooth and extremely strong. Beside the size 9000, other 2 new smaller sizes, 6000 and 5000 are available, as well. They are perfect to fit the new generation light and ultra light trolling rods, thanks to their very low weight and their power and reliability.

### KEY FEATURES

6 STAINLESS STEEL BALL BEARING, WITH A SPECIAL CERAMIC PROTECTION COATING.

MULTI DISK LEVER DRAG.

STAINLESS STEEL AND BRASS INNER GEARS.

COLD FORGED, SINGLE PIECE ALUMINUM SPOOL

## PRIDE SERIES

■ **T**hree rods studied for fishing rainbow trout in small lakes, using the Italian technique "Bombarda". Very thin and light, they are at the same time though and resistant.

Stainless steel reel seat, with rubber cushions

Black Diamond guides, Y shaped, with SIC rings and SS frames. Revolutionary compact wrapping.

Full carbon solid tip, sensitive and strong. The sliding guides are wrapped on a carbon tube.

■ **F**antastic "Bombarda" rods, conceived for the rainbow trout competition fishing. Perfect in any detail, from the soft EVA handle, warm and safe, to the revolutionary guides compact wrapping. Blank made of pure high modulus carbon.

The revolutionary compact wrapping of Black Diamond guides. The B.D. guides have SIC rings and SS frames.

Soft EVA handle, comfortable and safe, even in wet and cold conditions.

■ **A** new range of virtually unbreakable rods, tanks to the double X High Resistance Carbon reinforcement on a sandwich, multi layer high modulus/high density carbon, blank structure. The new X-ENERGY rods are equipped with cork handle and screw reel seat, for a perfect handling in any condition. Available in 4,00 and 4,50 m, casting from 10 to 120 grams.

Cork handle and screw reel seat: a perfect hold in any condition.

Multi layer hi-modulus/hi-density carbon blank with double X hi-resistance carbon reinforcement.

## PRIDE SERIES

Following the best Italian tradition of Bolognese fishing, Alcedo is proud to introduce a complete range of Bolognese rods, made of

## Pride Bolognese Class

■ **T**hin and the same time fast and

the best carbon fibers and having different actions, able to fulfill the needs of the most advanced and sophisticated anglers.

perfectly balanced, this classic action rod is perfect for light and ultra light fishing.

## Pride Bolognese Master

■ **F**ast action, tanks to the hi-modulus blank, the new Pride

Bolognese Master are light, perfectly balance and the same time extremely strong.

## Pride Bolognese Strong

■ **P**ure power for these stiff action rods, perfect for fighting with big fish and for salt water fishing.

The innovative carbon construction makes them light and perfectly balanced. Also available a 7,00 m. pole (no guides) to be used as it is or prepared for trout fishing or other heavy applications.

## Competition Bolognese

■ **A** new series of thin Bolognese rods, particularly light

and well balanced. Despite their thin diameter, they keep a good and fast action.

## Absolute Bolognese Thin

■ **U**nbelievably thin, these new, fantastic rods are probably the thinnest in the market. Despite their

diameter, the new ABSOLUTE are fast, perfectly balanced and they feature a fast and powerful action. To use them is a great experience.

■ **S**tudied in cooperation with Japanese pro fishermen, these new spinning rods, made of M8 high modulus carbon, are simply fantastic. When you keep them in your hands, it seems they have found the way to win the gravity! They are light, perfectly balanced and the same time fast and powerful. Two actions available: regular (casting up to 40 grams) and strong (casting up to 60 grams).

New extra light, titanium frame SIC guides

Innovative screw down reel seat, safe, comfortable and elegant.

## Pride Carp III

CODE	ITEM	LENGTH/ N° SECTIONS	CLOSED LENGTH	WEIGHT	ACTION
CALPRCARPIII	<b>PRIDE CARP III</b>	360/3	126	220	3 LB

■ **A** new carp rod made of high modulus carbon. The 3 sections construction makes this rod convenient and easy to be transported. The new Pride Carp III is extremely light and strong at the same time and it is highly finished. 3 Lb curve test power.

Black Diamond guides, with stainless steel frames and SIC rings. Flanged top guide.

## TOP RANGE

## Estreme Surf III

■ Simply the best for surf casting.

Unbelievably powerful and thin, this rod can cast up to 250g reaching distances that no other rod can reach. Original Fuji guides and reel seat.

## Extreme High Surf

■ Studied by the Spanish champion Jordi

Bastidas, these 2 rods are perfect for the most advanced surf techniques in Mediterranean sea and Atlantic ocean. Original Fuji guides and reel seat.

## Absolute Surf III

■ The most advanced result of the ALCEDO technology applied

to the Mediterranean surf casting conditions. These rods can cast up to 150g at unbelievable distances, that cannot be reached by other rods. Equipped with low ride SIC guides.

## Modularis Surf III

■ A very good surf casting rod, suitable both

for Oceanic and Mediterranean sea, with a powerful blank, able to cast easily up to 250 g, and a very sensitive tip. Very good quality/price ratio.

## GREEN LINE

■ After having introduced last year the version with wrapped guides, ALCEDO is proposing now the version with metal glued guides of this fantastic telescopic carp rod, one of the most successful and appreciated in Europe. Thanks to its double crossed carbon reinforcement, X-TROPHY is virtually unbreakable. This new version with metal guides (SIC rings) is even more compact when closed and it is easier to be repaired.

The high density carbon blank with a double X high resistance carbon reinforcement, makes this rod virtually unbreakable

Black Si-Lite top guide with flanged ring, perfectly resistant to the braided lines abrasion. The PS frame coating gives a very good protection against corrosion

■ A new carp rod made of high resistance carbon. The 3 sections construction makes this rod convenient and easy to be transported. The new GREEN LINE Carp III is perfectly balanced and it has a very good action, strong and progressive. 3 Lb curve power. Outstanding quality/price ratio.

Black Si-Lite guides, with stainless steel frames and Titanium rings. Flanged top guide.

■ This very good 13' match rod is perfect for catching big fish, like carps and big breams. Made of high density/high resistance carbon, the new GREEN LINE MATCH CARP 13' features high finish and an outstanding quality/price ratio.

The new screw-down reel seat, integrated in the soft EVA handle. It is safe and comfortable in any weather condition.

## GREEN LINE

## Jolly Pike

## Jolly Surf

## Jolly Carp

**Jolly Pike** - A new Epoxy Fiber rod, for fishing pikes and other predators. Very attractive price and good finish.

**Jolly Surf** - A new Epoxy Fiber rod, for sea fishing from the shore and for any kind of long casting. Very attractive price and good finish.

**Jolly Carp** - For carp and similar styles of fishing, a good rod, strong and well finished, featuring a very good quality/price ratio

CODE	ITEM	LENGHT (m)	N° SECTIONS	ACTION (g)
CADIJOPIKE400	<b>JOLLY PIKE 400</b>	4,00	4	100

## RANGE INTEGRATION

### REEL ALCEDO FOCUS RUN 7504

One bigger size added to this successful range of Free Spool reels. More details about the other sizes at page 21 of the 2007-1 ALCEDO catalogue.

### ROD PRIDE SURF 430-200

One more powerful rod, able to cast up to 200 g, added to this range of telescopic surf rods. More details about the other items at page 42-43 of the 2007-1 ALCEDO catalogue.

### LINE ALCEDO TITANIUM SOFT 200 m

A complete range of 200 m spools of this fantastic line produced by TORAY is available, now. More details about the whole range and features at page 25 of the 2007-1 ALCEDO catalogue.

### MASTER FIGHT BRAIDED. BIGGER DIAMETERS

Three bigger diameters added to this successful range of Dyneema braided lines. The diameters(mm)/strengths(Kg) are the following: 0,28/32,80, 0,32/46,40, 0,35/53,70. More details about the whole range at page 27 of the 2007-1 DIP catalogue.

### SLIDING GUIDES WRAPPED ON A CARBON TUBE

The high quality Black Si-Lite and All Black spare guides are now available also already wrapped on carbon tubes, for sliding applications. The whole available range is included in the price list. More details about the whole range of spare guides at pages 47-51 of the 2007-1 DIP catalogue.

### TELE SURF GUIDES PROTECTOR

A special guide protector studied for telescopic surf rods. Strong and convenient, this protector can keep inside and fit all the big guides of tele-surf rods. Made of shock resistant material, it has a special locking system, in order to prevent that it can slip, even if subjected to a strong compression from the top. Code: COANSUR

## MASTER FIGHT TWIN COLOURS

A new 2 colours Japanese line, featuring outstanding strength, low elasticity and a perfect mimetic appearance. Specifically studied for carp fishing. Available in 300 m spools.

## MASTER FIGHT LONG CASTING

This new Japanese line was specially conceived to be used in the conical spools of the modern long casting reels. Thanks to its very low elasticity, this line keeps a very good sensitivity even when the bait is some hundred meters far. Available in 300 m spools.

MASTER FIGHT CARP LONG CASTING 300 m.	mm.	Kg

MFGCARPT300-400	0,400	18,700

## CHROMIUM CARP

After the great success of Chromium Pro and Chromium Cast, the range is now enlarged with this new generation carp line. The main features of CHROMIUM CARP are: high strength, low elasticity, smoothness and high abrasion resistance. Available in a very innovative 2 tones mimetic colour, in 300 m. spools.

CHROMIUM CARP 300 M	mm.	Kg
CHRCARP300-235	0,235	6,450
CHRCARP300-265	0,265	8,600

## HOKKAIDO

Introduced last year, HOKKAIDO, the range of innovative lures studied and tested in Japan exclusively for ALCEDO, got a very good success in several European countries.

Now, the range is enriched by new colours and new items.

**NEW COLOURS** on the already existing items.

## NEW ITEMS

## Serra Pop

■ **A** new range of poppers specially studied to be used in salt water, in particular for catching SERRA (Blue Fish). It is also very effective for Sea Bass, Amberjacks and other pelagic predators. The flowing holes on the 2 mouth sides enhance the turbulence and the air bubble production. Available in 2 sizes: 115 and 90 mm.

DESCRIPTION	AVAILABLE COLOURS	LENGTH (mm.)	WEIGHT (g.)	ACTION	DEPTH (m.)
<b>SERRA POP 115 MM</b>	BHE-DSE-GHS	115	40	P	S
<b>SERRA POP 90 MM</b>	BHE-DSE-GHS	90	21	P	S

**Colours detail:** DSE(deep sea), BHE(bloody head), GHS(ghost shadow),

**Action details:** F(floating), SP(suspending), S(sinking), P(popper)

## HOKKAIDO

## Bass Pop

■ **T**his range of poppers was specifically studied for bass fishing. They are very effective for pike, as well. The flowing holes on the 2 mouth sides enhance the turbulence and the bubbling effect. Available in 2 sizes: 90 and 65 mm.

DESCRIPTION	AVAILABLE COLOURS	LENGTH (mm.)	WEIGHT (g.)	ACTION	DEPTH (m.)
<b>BASS POP 90 MM</b>	PER-MIL	90	21	P	S
<b>BASS POP 65 MM</b>	PER-MIL-GHS	65	7	P	S

**Colours detail:** GHS(ghost shadow), PER(perch), MIL(minnow in love)

**Action details:** F(floating), SP(suspending), S(sinking), P(popper)

## Dancing Crank

■ **S**imilar to Broken Crank, this new lure features a even more frantic movement, while the rattling effect generated by the 2 body parts touching each other is so strong that you can hear it, when the lure is still in the water, some meters far from you. Very efficient in any condition, it's a true killer for the big bass.

DESCRIPTION	AVAILABLE COLOURS	LENGTH (mm.)	WEIGHT (g.)	ACTION	DEPTH (m.)
<b>DANCING CRANK</b>	GHS-PER-MIL	60	14	F	1-2,5

**Colours detail:** GHS(ghost shadow), PER(perch), MIL(minnow in love)

**Action details:** F(floating), SP(suspending), S(sinking), P(popper)

## HOKKAIDO

## Stream Runner

■ A new generation of jointed lures, with a soft silicone tail. The movement is so natural that even the most suspicious predator will be deceived. These new generation lures proved to be very effective both in fresh and salt water. A must-have in the lure box.

DESCRIPTION	AVAILABLE COLOURS	LENGTH (mm.)	WEIGHT (g.)	ACTION	DEPTH (m.)
<b>STREAM RUNNER 110 MM</b>	AAN-BKB-LGF-BSH-MLT-GHS	110	14	F	1-1,5

**Colours detail:** BKB(black back), GHS(ghost shadow), AAN( Adriatic anchovy), LGF(logoon fish), BSH(blue shadow), MLT(mullet) - **Action details:** F(floating), SP(suspending), S(sinking), P(popper)

## Tide Runner

■ Similar to STREAM RUNNER, this new generation jointed lure with soft silicone tail was studied to swim in shallow water. The movement is so natural that even the most suspicious predator will be deceived. Proved to be very effective in fresh and salt water.

DESCRIPTION	AVAILABLE COLOURS	LENGTH (mm.)	WEIGHT (g.)	ACTION	DEPTH (m.)
<b>TIDE RUNNER 110 MM</b>	AAN-BKB-LGF-BSH-MLT-GHS	110	12	F	0-0,5

**Colours detail:** BKB(black back), GHS(ghost shadow), AAN( Adriatic anchovy), LGF(logoon fish), BSH(blue shadow), MLT(mullet) - **Action details:** F(floating), SP(suspending), S(sinking), P(popper)

## HOKKAIDO

## Sea Bass Killer

■ The point of strength of this new and the same time classic lure is the perfect swimming at different retrieving speeds and the casting distance, thanks to its perfect trim in air. The inner metal balls not only give the lure an attracting rattle effect, but they also adjust the balance in air. Studied specifically for sea bass fishing in salt water, the new S.B. KILLER proved to be very effective in fresh water, too, for pike, perch and big trout. Available in 2 sizes: 80 and 110 mm.

DESCRIPTION	AVAILABLE COLOURS	LENGTH (mm.)	WEIGHT (g.)	ACTION	DEPTH (m.)
<b>SEA BASS KILLER 110 MM</b>	BST-DSE-GHT-BKB-GHS	110	8	SP	1-2
<b>SEA BASS KILLER 80 MM</b>	BST-DSE-GHT-BKB-GHS	80	12	SP	1-2

**Colours detail:** BKB(black back), DSE(deep sea), GHS(ghost shadow), BST(black stripes), GHT(ghost tail) **Action details:** F(floating), SP(suspending), S(sinking), P(popper)

## Stream Dancer

■ After the big success of Wave Dancer we decided to develop a new lure able to swim deeper. In order to achieve this goal, our Japanese engineers studied a new lip, a new head shape and created a new open gill for increasing the turbulence effect. Available in 2 sizes, the new Stream Dancer are very effective in any condition.

DESCRIPTION	AVAILABLE COLOURS	LENGTH (mm.)	WEIGHT (g.)	ACTION	DEPTH (m.)
<b>STREAM DANCER 100 MM</b>	GHS-PER-BKB-DSE-MIL	100	19	SP	1-2
<b>STREAM DANCER 70 MM</b>	GHS-PER-BKB-DSE-MIL	70	12	SP	0,5-1,5

**Colours detail:** BKB(black back), DSE(deep sea), GHS(ghost shadow), PER(perch), MIL (minnow in love) **Action details:** F(floating), SP(suspending), S(sinking), P(popper)

## HOKKAIDO

## 3 D Shad

■ The 3D effect of this new family of lures gives them a very natural appearance. The inner laser surface, well visible through the transparent body produces reflexes that are irresistible for all the predators. The new 3D SHAD feature a very good swimming at any speed retrieve, and the high body density allows a very long and precise casting, also thanks to the perfect trim in air.

DESCRIPTION	AVAILABLE COLOURS	LENGTH (mm.)	WEIGHT (g.)	ACTION	DEPTH (m.)
3D SHAD 120 MM	BKB-LFI-MBL	120	25	SP	1-1,5
3D SHAD 100 MM	BKB-LFI-MBL	100	14	SP	1-2
3D SHAD 80 MM	BKB-LFI-MBL	80	9	SP	1,5-2,5

**Colours detail:** BKB(black back), LFI(lemmon fish), MBL(marine blue)

**Action details:** F(floating), SP(suspending), S(sinking), P(popper)

## Serra Killer

■ It is not a popper and it is not a wobbler. This hybrid lure was specially conceived for fishing SERRA (blue fish) in Mediterranean sea. Like a popper, SERRA KILLER is a able to generate a big turbulence on the surface, like a wobbler, it is able to swim and it can be profitably used at different retrieving speeds. The 3 D body appearance makes this lure even more attractive and the rear metal propeller generates turbulence and noise, making the trick simply perfect.

DESCRIPTION	AVAILABLE COLOURS	LENGTH (mm.)	WEIGHT (g.)	ACTION	DEPTH (m.)
SERRA KILLER 70 MM	BKB-LFI-MBL	70	15	F	0-0,5

**Colours detail:** MBL(marine blue), BKB(black back), GHS(ghost shadow)

**Action details:** F(floating), SP(suspending), S(sinking), P(popper)

## HOKKAIDO

## Slim Shad

■ This very slim wobbler can be used both for spinning or for trolling. It can be successfully used at different speeds, keeping always a very good position in the water and very natural movements. Very effective with big predators, in fresh and salt water.

DESCRIPTION	AVAILABLE COLOURS	LENGTH (mm.)	WEIGHT (g.)	ACTION	DEPTH (m.)
SLIM SHAD 135 MM	BKB-DSE-GHS	135	7	F	0-1

**Colours detail:** DSE(deep sea), BKB(black back), GHS(ghost shadow)

**Action details:** F(floating), SP(suspending), S(sinking), P(popper)

## Chimera

■ A fish in a great difficulty, swimming in upside-down position, with its belly up, and lying on the surface when resting. This innovative lure is perfectly imitating a minnow in its last life instants. Simply irresistible!

DESCRIPTION	AVAILABLE COLOURS	LENGTH (mm.)	WEIGHT (g.)	ACTION	DEPTH (m.)
CHIMERA 85 MM	PER-BHE-MIL	85	12	F	0-0,8

**Colours detail:** MBL(marine blue), BKB(black back), GHS(ghost shadow)

**Action details:** F(floating), SP(suspending), S(sinking), P(popper)

## JAPANESE PROJECT VERTICAL JIGGING LURES

Conceived and engineered in Japan, this fantastic range of vertical jigging lures are distributed in Europe by Italia Fishing. The shapes, the colours and the weights are specially studied for catching amberjacks and other big predators. 3 shapes available, in different colours and weights.

### J-202

■ **A** slim body profile for cutting the water and allowing sudden and natural movements even fishing in very deep water. The luminous belly offers a perfect visibility even in the low light deep fishing conditions. The laser finish, the holographic eyes and the "gills" give this lure a very natural baitfish appearance.

### J-200

■ **T**he most popular shape in vertical jigging lures. It features a very fast sinking and a great sensitivity to the rod tip movements, resulting in a very natural and attractive presentation for all the predators, like amberjacks, groupers and snappers. Luminous belly, laser finish and holographic eyes are the other key features natural baitfish appearance.

### J-KNI

■ **A** compact shape for fast sinking, a thin head for a prompt reactivity and a very natural appearance make this lure particularly useful for medium and deep fishing. Laser finish and holographic eyes.

DESCRIPTION	LENGTH (m)	WEIGHT (m)	COLOUR
HIRAMASA JIG LURE J-202	27	220	005-001-625
HIRAMASA JIG LURE J-200	15-18-21	100-150-250	622-623-624
HIRAMASA JIG LURE J-KNI	14-16-19	150-200-300	623-624-625

## BITE ALARMS

A new generation of electronic bite indicators, 100% water resistant, with smooth surfaces, thanks to the touch pressure operating buttons. Easy to clean and to handle.

### DBI-1

Innovative design and features, with bite counting display. Wireless

Main features:

- Volume and tone control
- Colour changing LED indicator with 20 seconds memory
- Long range
- Self range test facility
- Protective coated circuits and other electronic parts
- Power: 1 pc. 9 V radio alkaline battery

### DBI-2

Compact, reliable and easy to use. Wireless

Main features:

- On/Off switch
- Volume and tone control
- Sensitivity control
- 20" latching LED
- Protective coated circuits and other electronic parts
- Digital technology.
- Power: 1 pc 12V mini battery (MN21)

### DBI-2ST

A bite alarm remote control system composed by 3 DBI-2 and a radio station

Main features:

- Same features as DBI-2
- Very long reception range
- Radio station with vibration
- Radio station power: 9V battery.

This range of top quality Japanese hooks is able to fulfill the needs of the most advanced European fishermen. Made of hi carbon steel, extremely strong and light, the FUDO hooks are chemically sharpened and they are double coated, for the best corrosion resistance. The wide range of shapes and sizes can match all the most modern styles of fishing, both in salt and fresh water. Particularly interesting are the

## ELECTRONIC BITE ALARM

A new bite alarm, simple, strong and the same time very effective. It can be fixed on any kind of rod. On/Off switch and sound adjustment. A blue light flashing for night fishing.

Code: **ELBIN**

## CHEMICAL LIGHTS

New chemical lights, with liquid + powder inside. Their light is stronger and longer lasting than the traditional liquid+liquid chemical lights.

Available in 3 sizes:

- 3,0 mm ( 2 pieces in each bag). Code: CHL30-GR
- 4,5 mm ( 1 piece in each bag). Code: CHL45-GR
- 4,5 mm ( 2 pieces in each bag). Code: CHL45D-GR > **NEW!**

## ALCEDO CAPS

Pure cotton caps, with the ALCEDO logo embroidered on the front and on the back. A long visor protects your eyes against sun beams and reflexes. Adjustable size by a brass crocodile clip. Two embroidered logo colours available: white and red.

White logo: Code **CAPAB-W**

Red Logo: Code **CAPAB-R**

Logo embroidered also on the back and brass crocodile clip.

## ELECTRONIC MOTORS

This range of Electric motors is convenient and environmentally compatible. The new generation electronic circuits feature low power consumption and a powerful output. Available in 3 different trusts: 36 Lb, 40 Lb and 54 Lb, the new DIP MARINE motors are light and extremely strong, thanks to the composite main shaft, flexible and unbreakable and the nylon mounting brackets. All the motors are equipped with a convenient charge indicator, for the best battery management. CE approval for the whole range.

The convenient charge indicator, for the best battery management.

The 6' telescopic arm, for the best convenience with any boat size and seat position.

The nylon mount is strong, corrosion free and much lighter than metal.

CODE	ITEM	MAX TRUST	INPUT DC	FORWARD SPEEDS	REVERSE SPEEDS	SHAFT	CHARGE INDICATOR	WEIGHT (KG)	CE APPROVAL
MOEL36	ELETTRIC MOTOR 36 Lb	36 Lb	12 V	5	3	36 inch	YES	7,3	YES
MOEL40	ELETTRIC MOTOR 40 Lb	40 Lb	12 V	5	3	42 inch	YES	7,5	YES
MOEL54	ELETTRIC MOTOR 54 Lb	54 Lb	12 V	5	3	42 inch	YES	7,5	YES

A complete range of inflatable boats specially conceived for fishing. Made of top quality materials, after production they are inspected one by one, for the best safe and quality. The new DIP MARINE inflatable boats are available in 4 sizes, 2 colours and 2 shapes: a great choice, able to fulfill every need. They are given fully equipped, with aluminum shaft oars, foot pump, repairing kit, and carrying bag.

### TENDER 320-270

These boats are strong, stable and with a big storage capacity.

Perfect for fishing, both in fresh and salt water. The 3 separate chambers, plus the pneumatic keel, make them extremely safe.

The tender 320 and 270 passed the CE certificate testing. The foldable floor is made of plywood and aluminum, strong, light and durable.

Strong and convenient, the plywood and aluminum foldable floor is the best choice for day tripping and fishing activities. It will last years and years without any maintenance need.

CE plate on the transom. All the information are immediately detectable: CE registration number, Model number, max load capacity, max n. of persons and max engine power.

The pneumatic keel gives the boat bottom a more hydrodynamic shape and improves the safety, with its additional and independent inflated chamber.

### TENDER 230

This small and convenient boat, perfect as a tender for a bigger boat, can be successfully used for fresh water fishing, as well, like carp fishing and spinning. You can fish from the boat or you can use it for reaching hidden and exclusive places that cannot be reached in any other way. 3 independent chambers, for the best safe. The convenient and comfortable slatted floor can be easily rolled and transported.

The transom is made of marine grade plywood, with motor pad inside and motor mount plate.

The very effective oar lock system allows a very easy oar use and, together with the oar holders, keeps them efficiently fixed to the boat in rest conditions.

Durable life line for grasping and emergencies

The slatted floor is light, comfortable and convenient. It allows boat assembling and disassembling without extracting it. It's the best option for small boats and for people looking for compactness and portability.

### CARP/SPINNING 235

A small boat with a big loading space inside. The outside motor bracket allows to take full advantage of the inner space: 2 seats available and enough space for fishing luggage and other stuff. A perfect mate for carp anglers.
